Market Conditions

- Japan is a mature market with avid travelers who value quality over quantity and continues to hold high demand for Hawai‘i with approximately 9% of all outbound travel from Japan choosing Hawai‘i. Sixty percent of the travelers are also repeat visitors to Hawai‘i.
- Japan’s economy remains on a moderate path to recovery with unemployment at 2.8% and the exchange rate stabilizing approximately 112 JPY to USD.
- Japan’s inbound travel continues its robust growth with preliminary numbers YTD total of 13.8 million (+17.4%) while outbound YTD total of 8.4million (+6.3%) as of June 2017. JATA (Japan Association of Travel Agents) Outbound Promotion Committee has expanded its activities to promote outbound travel and is in discussion on JATA’s goal of 20 million outbound visitors by 2020. JATA is also working towards sending 10% of total outbound business (2 million) to Hawai‘i by 2020.
- Competitive destination efforts remain strong. Travel trade destination workshops by various countries and number of commemorative anniversaries are encouraging collaboration including governmental relations.
- Safety is top priority when traveling abroad for the Japanese market. Volatile global conditions, such as terrorist activities in Europe and North Korea’s missile threat to Guam, have contributed in decline of the Japanese visitors to such regions.
- Hawai‘i remains the number one outbound travel destination for Japanese weddings which has grown 20% over the last 5 years, and capture 67% market share (0.5% up from previous year) with average spending of under 2 million yen (\$20,000 USD.) This is due to many consumers’ strong desire to hold their wedding ceremony aboard.
- The development and use of VR goggles and island VR videos have been implemented for the Japan market’s Millennial initiative VEBOSS.
- The overall trend in airline seat category for the Japan market is shifting to higher-end economy which reduces the number of seats for each aircraft, however, allows higher yield to airlines.

- Airlift for Japan market is increasing with introduction of AirAsia X's and Scoot's four-times weekly service from Southeast Asia (Kuala Lumpur and Singapore respectively) to Honolulu via Osaka, as well as relaunch of Japan Airlines' daily direct flight between Kona and Narita.
- Active collaboration with industry partners and private sectors maintains high exposure of Hawai'i within the Japan market. Some leading examples include HTJ's campaign, Gohoubi (rewards) Hawai'i, Locomoco All-stars (collaboration with McDonald, Lawson and Gusto featuring locomoco menus), Hawaiian Springs Water and Yomiuri Giants working together for ticket giveaways and Konica Minolta Planetariums Theaters featuring new Hawai'i Island.
- Some travel agents are shifting its focus from other destinations to Hawai'i as they see YOY positive results for Hawaii.
- Launch of direct air service to Kona and increase in scheduled flights as well as the charters for the first six months of the year had contributed in growth in Japan market's spending and arrivals.
- Emphasis on Hawai'i Island and neighbor island promotions continues. Some examples include the development of Island of Hawaii promotional video footage, Hawai'i destination seminars, agent FAM tours as well as active discussion with local stakeholders for the improvements of infrastructure around Kona.
