Novel Coronavirus in Hawaii

COVID-19 Positive Cases

Cumulative totals as of 12:00pm on April 30, 2021

Total Confirmed Cases	32,349* (118 new)
Hawaii	2,692
Kauai	243
Lanai	111
Maui	3,385†
Molokai	37
Oahu	24,832
Out of State	1049
Pending	0
Required Hospitalization	2,133‡
Hawaii Deaths	483
Cases in the past 14 days	1,145*

Footnotes for COVID-19 Cases

*

**Using cases reported in the past 14 days provides a rough approximation of the number of cases currently meeting criteria for isolation. This proxy number for "active cases" resolves classification issues for cases unable to be reached or who are out of jurisdiction, for whom precise release from isolation date may not be possible to determine. It is also not influenced by lags in data entry. (This total does not include Hawaii residents diagnosed outside of Hawaii)

†One case is a Lanai resident whose exposure is on Maui Island and who will be remaining on Maui Island for the interim.

‡Includes Hawaii residents hospitalized out of state.

§Includes cases that meet isolation release criteria (Isolation should be maintained until at least 24 hours after resolution of fever and myalgia without the use of antipyretics OR at least 10 days have passed since symptom onset, whichever is longer). (The cases that have died and one case that has left the jurisdiction have been removed from these counts). Positive cases include confirmed cases, and Hawaii residents and non-residents; data are preliminary and subject to change. Note that CDC provides case counts according to states of residence.

April 29 (Thu)*

	Total	On domestic flights to					On int'l flights from		
		State	Oahu	Maui	Big isl	Kauai	All	Japan	Others
2021	18,409	18,054	9,492	5,509	2,215	838	355	112	243
